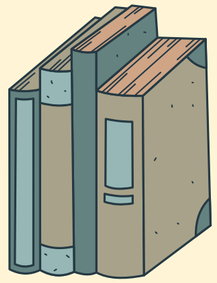
ACADEMIC MONITOR

REGIONAL COLLEGE

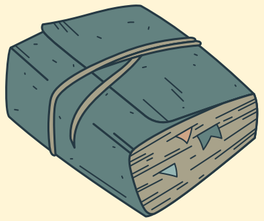
Presented by: Group 4

PRESENTATION OUTLINE

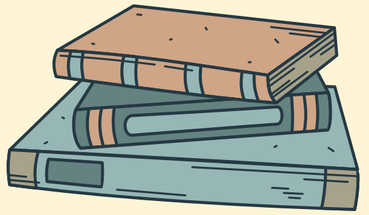


INTRODUCTION

COMPARISON



WHY US



WHAT'S NEXT

INTRODUCTION

- Academic monitor is an open-source project.
- Our main goal is to provide fully custom academic solutions that are self-contained.
- Add a personal touch by customizing your app.
- Make managing your academic ventures easier.

TARGET AUDIENCE

- Institutions that are looking for a ready-made solution.
- Institutions that are not willing to use completely third-party apps.
- Institutions that require customisability.
- Institutions that require an affordable option.

LET'S
COMPARE

ACADEMIC MONITOR

- Customizable
- Open-source
- Web-oriented admin module
- Full access to database and codebase

3RD PARTY

- Fixed pattern
- In-app payments and hidden fees
- Limited options
- 3rd party has access to data

WHY US?

HERE'S WHY

- Lack of open source projects that are fully free.
- Python codebase is easier to edit.
- Visual solutions to measure the performance of students.
- Parent module to update parents regularly.

WHAT'S NEXT?

Feature complete and deployable testing phase

Limited modules and feature sets tested by in house developers

BETA

ALPHA

BETA TESTING

Closed release likely to be downloaded and tested by close memebers

RELEASE

Public release
Stable software
Feedback stage

Debugging and further development.

Forming an open-source community to maintain the code base

MAINTANANCE

THANK YOU FOR LISTENING!

Don't hesitate to ask any questions!
